July 2, 1967

Dear Mr. Weissberg,

Please read the enclosed article. Have you read the AP report? You say your books contain new evidence. The AP report holds that no new evidence casts legitimate doubt on the Warren Report findings. Do you feel this is merely a difference of opinion? I would very much appreciate a brief answer to the following questions. Thank you very much for your help.

Sincerely,
Ronald Mance 1907 S. 49th Court, Cicero 50, Ill

1. Did Oswald shoot officer Tippit?
2. Did Jack Ruby know Oswald? Was Ruby a part of the conspiracy?
3. Do you accept the "single bullet theory"? Is this theory essential to the findings of the Warren Report?
4. Do you feel the shots that came from the rear came from the Depository building?
5. Was Oswald a part of the conspiracy?

6. Do you disagree with the men who were closest to the wounds of Governor Connolly that the bullet had a minimal loss of weight?

7. Do you agree with Jim Garrison that the assassination was plotted in New Orleans?

P.S. Are your books available only by mail? What can a private citizen do to support another inquiry into the assassination?
